What I've Discovered that I Love

Silver... from London to Vienna.
Particular underground shops, or shops only available by appointment with antique as well as new custom silver pieces, from flatware to jewelry & iconic signet rings to curious objet d'arts. In a world where so much is mass-produced same as the next person, picking up a rare one-of-a-kind silver cigar case date stamped from the early 1900's as a special birthday gift is incredibly precious... | Image to the right is from a recent visit end of January to the London Silver Vaults on Chancery Lane, with friends from Queen of Clubs Luxury Lifestyle Services & The Beaumont Hotel, with me in the middle.

Unique Experiences & Travel Inspiration

Polo originated in Persia (today's Iran, Afghanistan, Kashmir, and Northern Pakistan) more than 2600 years ago. But it wasn't until 1985 that we saw the world premiere of a polo tournament on snow on the frozen lake of St. Moritz Switzerland. The game is played on snowy grounds all over the world today

from Aspen to Austria, however the St. Moritz event remains the most prestigious. It's sport, sophistication, and tradition. I have a client that I arrange this experience for each year, skiing between matches, and ending the trip with time in nearby Milan. Stay: Badrutt's Palace Hotel | Next Event - January 24-26, 2025.

A Notable upcoming Client Trip

Years ago, I was onboard Aqua Expeditions' small luxury vessel down the Mekong River. Cambodia would become solidified as a favorite destination. Pair that with a solo female client requesting something similar, and there are few other things that can make my adventurous do-it-alone soul sing. She'll start in Bangkok, then journey to the Thai-Myanmar-Laos border to The Four Seasons' tented camp, fly on to Cambodia for exploration on land before sailing down to Saigon on that same vessel, exploring villages & culture along the way that would otherwise be inaccessible. | Best Time of Year: October-March
